Task 1 - Camera Usage

Camera

The camera i use is a Canon eos 2000D with 2 lenses:

1. 18-55 MM
2. 75-300 MM

It's a good beginners camera, many people are pleased with the usage of the camera, but also about the ability to change the settings to your liking.

Fun fact: canon cameras score better on autofocus.

Task 2 - Hidden faces
